Psychologist

Professional Interests / Specialties:

Anxiety disorders, trauma, phobias; career choice, change, management; attorneys, police, firemen, executives; midlife transitions; sports performance; couples counseling; interactive imagery; hypnotherapy, EMDR, TFT. My orientation and training is quite eclectic, drawing from cognitive-behavioral, psychodynamic, developmental, existential and experiential theory and practices, among others. Since psychotherapy is collaborative, the specific approach varies with individuals, but generally focus is placed upon identification of various problem issues and what can be done about them. The varied impediments, overloads, and restrictions upon the person's potential for health and well-being as well as the many strengths available become grist for the mill of resolution and enhancement.

Education:

BA Vanderbilt University; JD University of Baltimore School of Law; MA University of Maryland; Ph.D., University of Maryland, 1989.

Background / Experience:

Public and private law practice, Yoga and meditation instructor, college counseling, private psychology practice.

Professional Affiliations /Activities:

American Mental Health Alliance Oregon (AMHA-OR Metro)
American Psychological Association
Oregon Psychological Association
Eye Movement Desensitization and Reprocessing International Association (EMDRIA)
Oregon State Bar (license inactive)
